## CAD inkjet-paper super white

### Product description:

Bright white inkjet paper for CAD prints with very high resolution. Very good contrast due to satinated surface. The ink drying is water-resistant.

### Specific feature:

91480 is a classical, super-white plotter paper for laser and inkjet plotters. It is extremely suitable for high-contrast lines- and screen-process plots with very good resolution. A quality paper with homogeneous closed paper surface for the output of black/white plots on all common inkjet plotters. We supply 91480 with the paper weight of 80gr. The paper provides short drying times and very good sharpness of outline. Archive stability as per ANSI/NISO Z39.48-1992, ISO 9706-1994, DIN 6738-1992. Due to a special production method 91480 is also suitable for CAD colorline plots on HP Designjet 750C.

ENVIRONMENTAL TIP: 91480 is produced absolutely acid-free, the raw materials are qualified TCF free from chlorine.

### Processing:

For quality reasons the processing and storage of 91480 should take place in a climate from 45 to 55% relative humidity and at a temperature from 17-30°C. Keep in the original packing carton box and PE-bag.
