Artist Line Coating

Protection varnish for Fine Art prints

Product description:

Lacquer based protective spray for inkjet prints. Eliminates gloss differential, and protects the prints against smudges, finger prints, moisture and UV. Dries quickly and colourlessly.

Specific feature:

Lacquer based protective spray for inkjet prints. The special formula eliminates gloss differential, which can occur with use of pigment inks. Due to the low solids formula, the look and feel of the paper is not changed. Recommended for all ink jet prints requiring protection. Extends the life of the print, certified by WIR (Wilhelm Research).

Processing:

Artist Line Coating is available in ready to use spray cans and 5 litre bulk containers for economical use with HVLP spray guns. Store between 0°C and 49°C. Do not store in the direct sunlight. For optimal results, let your print dry for at least 24 hours before coating, coat in a climate of 20°C and 50% relative humidity. Please consult the material safety data sheet for health and safety risks.

Technical specification:

Material:	COATING
Application Area:	NUR IM INNENBEREICH
Surface:	TRANSPARENT
B1-cert.:	nein
Cold lamination:	ja
water resistant:	ja
scratch resistant:	ja
Staubtrocken:	unter 1 min
Handtrocken:	nach 5 min
Applikation:	Sprühen
