

Data sheet

Canvas Como PRO bright white

Genuine canvas-linen, mat, Oeko-Tex®

Product description:

Semi-fine, textured canvas, for bright white art reproductions and prestigious picture prints, in tear-resistant 2:1 weave. Certified according to the Oeko-Tex® Standard, very good colour space.

Specific feature:

Canvas Como PRO bright white is a naturally white blended fabric of cotton and polyester fibres, coated for printing with water-based inkjet printing. The coating is fast-drying even at high levels of ink application. The prints impress with high colour brilliance, perfect ink absorption and after drying is complete, they are resistant to water splashes, long-lasting and non-sensitive. Canvas Como PRO bright white stands out through its extremely good flatness qualities both when printed and unprinted, particularly also after the application of a protective paint such as our ClearShield FineArt paint, which was specially developed for use on canvases. Pictures printed on Canvas Como PRO bright white with pigment-based inks are to a large extent resistant to the effects of light, making it very suitable for archiving purposes. Canvas Como PRO bright white fulfils completely the applicable human-ecological requirements in accordance with Oeko-Tex® Standard 12.0.09048.

Processing:

For quality reasons, the processing and storage of Canvas Como PRO bright white should take place in a climate of 35-65% relative humidity and at a temperature of 10-30°C. Store in the original packaging in a cool, dry place, clean and dust free. A 24-hour climate adaptation in the processing area is recommended. Attention: turn off the automatic cutting option on your printer! We recommend you feed approximately 50cm of the media out before printing and cut manually after printing.

Technical specification:

Material:	GEWEBE
Application Area:	NUR IM INNENBEREICH
Surface:	MATT
Specific gravity:	340,00g/m ²
Thickness:	400,00µm
B1-cert.:	nein
Cold lamination:	nein
can be sewn:	ja
can be stretched:	ja
water resistant:	ja
scratch resistant:	ja
Opacity:	>98
Color L:	94,3
Color a:	-0,25
Color b:	0,5
UV-whiteness:	>130
ph-value:	6,0
Oeko-Tex Standard 100:	12.0.09048
DIN ISO 16245	Nein
