

Already sixth in series we assembled a special offer, with which graphics professionals and producers get an extensive and free-of-charge ICC Profile Package for 20 specially selected RAUCH media - for the combination **Onyx RIP** with the powerful **HP Designjet Z6100 and Z6200**.

With minimum input, but with guaranteed success, you can expand your possibilities!

(Onyx-Profiles for printers from **EPSON** and **CANON** are available on request).

# Production Profile Package

**Making creativity visible!**

## PRC 100 HQ

90g Special double coated matte paper for high quality water resistant presentation-plots. Special coating for brilliant color reproduction, exact lines and fast drying.

## PRC 140 HQ

140g Matte coated paper with high resolution for high quality presentation plots with high color application, for brilliant color reproduction, water- and smear-resistant drying.

## PRC 175 „PrintPLUS“

180g Color paper matte with a high quality barrier coating for high ink limit without wet cockling. Universal use, instant dry, can be laminated hot & cold very well.

## PLC Billboard

120g Outdoor billboard paper to be glued onto advertising areas. Foldable wet and resistant against mechanical stress. The backside is blue coloured to avoid translucency. Tested and Certified by the AGP.

## Foto Satin 190

190g Silk matte photo paper for presentation prints, posters, photo reproduction, a.s.o. Wipe-resistant drying immediately after printing, universal utilisation, very good ink saturation, excellent lamination features.

## Foto Gloss 190

190g High gloss photo paper for presentation prints, posters, photo reproduction, a.s.o. Wipe-resistant drying immediately after printing, universal utilisation, very good ink saturation, excellent lamination features

## Postersatin 250

245g Heavy silky mat photoposter paper for presentation prints, posters, photo reproductions, a.s.o. Wipe-resistant drying immediately after printing, universal utilisation, very good ink saturation, excellent lamination features.

## Linen Como

340g Medium-fine linen tissue for artist reproduction, Polyester-Cotton mix. Very tear resistant due to special material structure. Excellent printability and water resistant drying. Crease free coating suitable for both Dye and Pigment inks.

## PopArt Canvas

380g Clearly and regularly textured heavy matt highly tear-resistant polyester-canvas for interior and Pop-Art-prints in high volume production. Bright colors, large color space and outstanding blacks.

## Persenning heavy B1

180g Heavy white Nylon-Persenning for publicity banners, extrem wind and water resistant and highly tear resistant. Can also be used for short and medium lasting outdoor events.

## PhotoTex

250g This special fabric gives vivid, sharp print results with brilliant colors. The Adhesive is re-movable, re-usable and re-positional, easy to install, permanent as well as temporary, with no residue.

## Trevira CS B1 (UV)

110g White polyester textile for flags, woven in fibre structure, difficult to inflame due to special Trevira CS fibre, backside with PE base. kaschiert.

## Premier Generations Alise Museum

260g A 100% cotton natural white fine art paper with a smooth surface, ideal for photography and fine art reproductions. Coated without OBA's. The paper gives extremely high D-Max, is acid free, buffered for added longevity.

## BLF 130 AS

140µ Transparent premium quality display film. Front side special coating for water resistant prints with highest color brilliance. Suitable for pigmented and dye inks.

## PP-Matt PRO

235µ Self-adhesive PP-film for universal use with a mat waterresistant coating. Short-term exterior application possible without lamination, with suitable lamination for outdoor application up to 6 months.

## PVL-Matt Star

290µ Highly opaque and flexible vinyl film with a microporous coating. Even unlaminated, outdoor life time up to 12 months if printed on with pigmented ink. Can be laminated right to its edges. Polyacrylate dispersion adhesive on backside.

## Vinyl GlossPro 280

280µ White self-adhesive vinyl film, backside with release liner. Its glossy microporous coating is fast drying and gives brilliant color printouts all-purpose with pigmented and dye ink.

## Synthetic Paper

180µ High resolution synthetic outdoor film with water-resistant coating suitable for limited outdoor use. Long lasting outdoor use with cold lamination. Can be stretched and eyeleted. Also suitable for banners and „Popup/roll-up“ displays.

## RollUp 180MS

150µ High-white matt polyester film with a stoplight silver reverse, specially made for mobile RollUpdisplays. The print side is low glare and scratch resistant. Good flatness

## PLC-Banner EXPO

370µ Tear and water resistant polyester banner. Special white vinyl coating for advert banners. Excellent colour reproduction and easy handling. Can be sewn and eye letted.

**rauch**<sup>®</sup>  
papers, films and ideas

We are proud to be able to look back on a long company history. Founded in 1984, Rauch is one of the leading suppliers of high quality print media for diverse applications in CAD, Graphics, Photography and FineART.

### Finding what you are looking for

Papers, plastic films, textiles banners and much, much more.

We put together our range of products based on experience and a keen sense for our market.

### Meeting your expectations, quickly and flexibly

Every year, we process up to 5,000 tonnes of print media in widths of up to 2,50 metres on our seven production lines. Our modern and efficient plant produces articles for stock and special order goods.

Thanks to high stock availability, we deliver finished products punctually and reliably.

Together with our dealers, subsidiary offices and distributors, we offer an extensive network of competence centres.

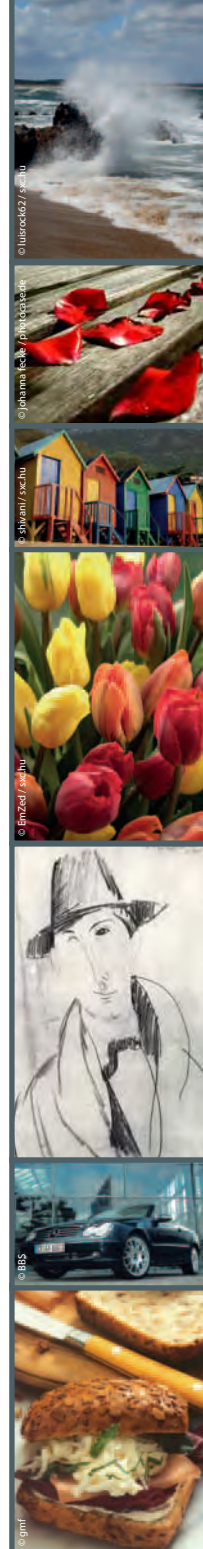

### Individually for you

Together, we find solutions. Personal contact is very important to us. We address and answer your questions about the choice of media, applications or further processing individually and efficiently.

### Everything from a single source

The companies of the Rauch-Group assist you with branded products and advices all around inkjet technology and color management. With our professional complete solutions for Proof & production, Photo & FineART you optimize your work flows economically.
