With our special package, Photo, Fine Art, and Graphic design professionals will receive a free-of-charge ICC Profile Package for 19 specially selected RAUCH media, - for the combination **Onyx RIP** with the productive **EPSON Stylus Pro GS6000**.

With minimum input, but with guaranteed success, you can expand your possibilities!

(Onyx-Profiles for other printers are available on request).

Epson Stylus Pro GS6000 Profile Package

Making creativity visible!

MediaJet® S Paper satin

135g Satinated, barrier coated paper for high resolution prints. „Noncockling“- quality for high speed print-process. For indoor applications.

MediaJet® S Posterpaper satin

200g High opaque barrier coated poster paper with a satin finish for brilliant and vivid colors. Weather - and waterresistant, also suitable for outdoor applications.

MediaJet® S Photo Papier Pearl 220

225g Bright white satin photo paper, PE based, microporous coating, fast drying.

MediaJet® S Blueback Satin

120g Opaque white coated paper with blueback. Water- and outdoor resistant, perfect folding performance. For outdoor applications

MediaJet® S Photo Art Natural Satin

310g Finely textured satin Cotton/ Cellulose-Paper for finely nuanced and neutral colour image reproduction, quick-drying even at high ink levels.

MediaJet® S RollUp 170S

170µ White satin, tear proof polypropylene film with a waterproof coating. High dimensional stability, print resolution and colour intensity.

MediaJet® S RollUp Premium190M

190µ One side coated polyester film, Very good flatness and rolling properties, with a light stop inner layer, with a white reverse.

MediaJet® S PopUp 300M B1

300µ Matt PVC-banner, with a white, nonreflective coating, opaque, specially made for mobile PopUp-displays with highly effective colour brilliance. Fire retardant, B1 certified according to DIN.

MediaJet® S BackLight 210G

210µ Translucent PET-Backlight Film, glossy solvent coating, characterized by very high colour density and high colour contrast.

MediaJet® S CarWrapping GP-G

80µ White glossy, highly flexible, cast PVC-film. The grey solvent adhesive covers well, sticking permanently, while being detachable with no residue. .

MediaJet® S Gecko-Clingfilm WG

150µ Soft PVC-adhesion film, glossy white, suitable for cutting plotters, on release paper, adheres without adhesive glue, on the reverse as well as the printed side on smooth and lacquered surfaces, removable with no residue

MediaJet® S Production Banner Smooth B1

510g Matt white, smooth Frontlit-banner for indoor and outdoor use, printable on one side. UVstable interlocking weave, B1 flame retardant and mildew retardant.

MediaJet® S Production Solid Blockout

510g Heavy matt white, lightstop blockout-banner with a black inlay, printable both sides. Highly tear resistant, UV-stable interlocking film, flame retardant and mildew retardant.

MediaJet® S Canvas Siena

320g High quality canvas in a fine 1:1 weave, reminiscent of „old masters“ canvas, with a natural brown reverse. High resolution and very good colour spectrum. High ink limit.

MediaJet® S Canvas Turin

300g Fine coated Poly/Cotton Mix canvas, flexible coating prevents cracking, water-resistant

MediaJet® S Persenning Heavy B1

220g White PE fabric with a medium-fine weave and a matt surface. Tear-resistant, water-proof, also for short and middle term outdoor use. Non-fray cutting

MediaJet® S Cotton Deko

230g High-white cotton fabric for RollUp-displays and coverings, with a light satin gloss, B1 flame-retardant. Tear-resistant fabric with high stability. Solvent coating on the inside

MediaJet® S Phototex

250g Finely structured fabric for sharp and vivid print results with brilliant colors. Specially formulated adhesive - removable, repositionable and reusable without residue.

MediaJet® S Wand Vlies Smooth

210g Soft smooth fleece for sharp and brilliant wall coverings and photo wallpapers. The fleece is 100% PVC-free, universally printable and B1 fire-retardant certified when applied to a non-flammable surface.

rauch[®]
papers, films and ideas

We are proud to be able to look back on a long company history. Founded in 1984, Rauch is one of the leading suppliers of high quality print media for diverse applications in CAD, Graphics, Photography and FineArt

Finding what you are looking for
Papers, plastic films, textiles banners and much, much more.

We put together our range of products based on experience and a keen sense for our market.

Meeting your expectations, quickly and flexibly

Every year, we process up to 5,000 tonnes of print media in widths of up to 2.50 metres on our seven production lines. Our modern and efficient plant produces articles for stock and special order goods.

Thanks to high stock availability, we deliver finished products punctually and reliably.

Together with our dealers, subsidiary offices and distributors, we offer an extensive network of competence centres.

Individually for you

Together, we find solutions. Personal contact is very important to us. We address and answer your questions about the choice of media, applications or further processing individually and efficiently.

Everything from a single source

The companies of the Rauch-Group assist you with branded products and advices all around inkjet technology and color management.

With our professional complete solutions for Proof & production, Photo & FineART you optimize your work flows economically.

Making creativity visible!
