

## mediaJET® Museum Natural Velvet | Velvety soft fine-art cotton paper

---

### Product description

Museum Natural Velvet is ideal when a soft, clear texture is desired for a perfect overall picture. This very beautiful, natural white 100% cotton paper has a special acid-free coating, without optical brighteners, which allows premium art prints with an increased colour range and high D-Max. This subtle paper has an even clearer rag surface than Museum Natural Rag.

### Specific feature

This modern fineart paper mediaJET Museum Natural Velvet is characterized by its natural white Rag surface and is made of 100% cotton. Due to its soft, matt, subtle texture, mediaJET Museum Natural Velvet is ideal for valuable editions and original prints. Due to the special ink jet coating without OBA's with its unique texture, a large colour gamut, high contrast and colour density can be achieved with pigment and dye inks and with most printing systems.

### Processing

To guarantee optimal quality, photo and fine art papers should be stored and processed in a climate with 30-70% relative humidity and at temperatures from 15-30°C. We recommend that the paper be acclimatised in the print room for one day before printing, and to reseal in the original package after printing. Prevent fingerprints on the coated side by wearing clean cotton gloves while processing. Please avoid contact with solvent, glue and softener, leads to yellowing.

---

### Technical specification

---

Material:	Paper	Colour L:	99,2
Application Area:	only indoor	Colour a:	-0,1
Surface:	Matt	Colour b:	0,7
Specific gravity:	300,00g/m <sup>2</sup>	UV Whiteness:	>86% (D65/10°)
Thickness:	480,00µm	Opacity:	>98%
B1-cert.:	no	PH Value:	neutral
Water resistant:	yes	Optical brighteners:	none
Cold lamination:	yes	DIN ISO 9706 archive-resistant:	yes
Heat lamination:	yes
