signJET Canvas Catania

Satin production canvas

Product description:

Coated Canvas for high volume professional artist reproduction, satin white Poly-Cotton 2:1 base, very tear resistant due to special material structure. Excellent printability and water resistant drying. Crease free coating and fast drying

Specific feature:

Flexible, acid-free artist canvas with a unique print image. Excellent colour brilliance, rapid ink drying and absolute accuracy of detail are achieved through a special coating. These print characteristics, coupled with an attractive price, make signJET Canvas Catania a powerful and ideal medium for high volume art production. The flexibility of the material facilitates stretching over wedge or clamp frames. Print side outwards, for water-resistant prints with solvent-based inks.

Processing:

Processing and storage of signJET Canvas Catania should take place in a climate from 35 to 65% relative humidity and at a temperature from 10-30°C. It should be stored cool, dry, clean, and dustfree in its original packaging. Wear cotton gloves and handle carefully as surface is susceptible to abrasion and/or fingermarks. Use only archive grade tapes and glues for mounting and framing as well as archive quality envelopes, folders, and boxes for storage. Turn OFF the printer's automatic cutter! Before and after the print, feed approx. 50cm and cut manually.

Technical specification:

Material:	GEWEBE
Application Area:	NUR IM INNENBEREICH
Surface:	SEIDENMATT
Specific gravity:	390,00g/m ²
Thickness:	490,00µm
B1-cert.:	nein
Cold lamination:	nein
can be sewn:	ja
can be stretched:	ja
water resistant:	ja
scratch resistant:	ja
Opacity:	> 99%
UV-whiteness:	93,5 ±1,5
Specular gloss:	4,8 ± 1n5 (60°)
ph-value:	7 ±0,5
