signJET Canvas Savona

Mat production canvas

Product description:

Fine mat coated Canvas for artist reproduction, Poly-Cotton 2:1 base, very tear resistant due to special material structure. Excellent printability and water resistant drying, flame retardant DIN EN 13501-1

Specific feature:

Flexible, acid-free artist canvas with a unique print image. Excellent colour brilliance, rapid ink drying and absolute accuracy of detail are achieved through a special coating. These print characteristics, coupled with an attractive price, make signJET Canvas Savona a powerful and ideal medium for art reproductions, interior design or art prints. The flexibility of the material facilitates stretching over wedge or clamp frames. Print side outwards, for water-resistant prints with Latex based inks.

Processing:

Processing and storage of signJET Canvas Savona should take place in a climate from 35 to 65% relative humidity and at a temperature from 10-30°C. It should be stored cool, dry, clean, and dustfree in its original packaging. Wear cotton gloves and handle carefully as surface is susceptible to abrasion and/or fingermarks. Use only archive grade tapes and glues for mounting and framing as well as archive quality envelopes, folders, and boxes for storage. Turn OFF the printer's automatic cutter! Before and after the print, feed approx. 50cm and cut manually.

Technical specification:

Material:	GEWEBE
Application Area:	NUR IM INNENBEREICH
Surface:	SEIDENMATT
Specific gravity:	390,00g/m ²
Thickness:	470,00µm
B1-cert.:	nein
Cold lamination:	nein
can be sewn:	ja
can be stretched:	ja
water resistant:	ja
scratch resistant:	ja
Opacity:	> 95%
Color L:	94,5 ±1,5
Color a:	0,2 ±1
Color b:	1,6 ±1,5
ph-value:	7 ±0,5
DIN ISO 16245	Nein
