mediaJET Museum Fibre matt Natural white photo-art paper

Natural white, velvety soft photo art paper made of 100% alpha cellulose, with a fibre surface based on the classic rag paper. The light paper is FOGRA certified, acid-free and coated without optical brightener. Enables prints with high D-Max value and dynamic colour reproduction, ideal for exhibitions, competitions, photo and fine-art work.

mediaJET Museum Natural Rag Natural white photo-art cotton paper

Museum Natural Rag is a natural white, traditional PhotoArt paper made of 100% cotton with a soft, typical rag surface. A distinctive paper with ideal paper weight for long-lasting photo and fine-art reproductions. Made without optical brighteners and acid-free, for premium prints with extremely high D-Max values and very large colour space.

mediaJET Museum Natural Smooth									
Natural white photo-art cotton paper									
<i>Museum Natural Smooth, like Museum Natural Rag, is a natural white, traditional PhotoArt paper made of 100% cotton, a little heavier in paper weight, with a soft surface and a little less, rather reserved structure, for long-lasting photo and fine-art reproductions with very high quality. Made without optical brighteners and acid-free, for valuable prints with extremely high D-Max values and perfect colour space.</i>	310g	A4	210 mm	297 mm	25 Bl.	0550108740	32,37	20,76

	mediaJET Museum White Smooth								
High white matt cotton paper									
<i>Museum White Smooth is the slightly lighter addition to Museum Natural Smooth, also made of 100% cotton, with a soft surface and subtle paper texture. Low optical brighteners, acid-free and therefore ideal for long-lasting photo and fine-art reproductions. Ideal for black/white prints as the white tones are more natural and neutral due to the white paper. For premium prints with extremely high D-Max value on genuine cotton paper.</i>	300g	A4	210 mm	297 mm	25 Bl.	0550165740	36,03	23,11

	mediaJET PhotoArt White Satin								
	Fourdrinier photo-art inkjet paper								
<i>This PhotoArt paper full of character with a pleasantly grippy rag surface is bright white, with little optical brightener and made of 100% α-cellulose. Printed surfaces, such as photos, graphics and drawings, are reproduced with a silk-matt effect; unprinted surfaces remain unobtrusively matt. This paper opens up new possibilities for photographers and artists and gives the print brilliance and dynamism.</i>	270g	10x15	102 mm	152 mm	50 Bl.	0550140998	28,22	36,40

<i>A unique matte textured canvas, for high-quality art reproductions and professional image printing. With a natural-looking fine canvas structure in tear-resistant 2:1 cross-binding, you can create art prints with exceptional colour space and high densities. Due to the lack of optical brighteners, there are no color shifts.</i>	370g	24"	610 mm 3 m 1 Rll. 0261900250	35,82	19,58
