Museum Fibre Matt

200g

Natural white photo-art paper

Natural white, velvety soft photo art paper made of 100% alpha cellulose, with a fibre surface based on the classic rag paper. The light paper is FOGRA certified, acid-free and coated without optical brightener. Enables prints with high D-Max value and dynamic colour reproduction, ideal for exhibitions, competitions, photo and fine-art work.

Museum Natural Rag

260g

Natural white photo-art cotton paper

Museum Natural Rag is a natural white, traditional PhotoArt paper made of 100% cotton with a soft, typical rag surface. A distinctive paper with ideal paper weight for long-lasting photo and fine-art reproductions. Made without optical brighteners and acid-free, for premium prints with extremely high D-Max values and very large colour space.

Museum Natural Smooth

310g

Natural white photo-art cotton paper

Museum Natural Smooth, like Museum Natural Rag, is a natural white, traditional PhotoArt paper made of 100% cotton, a little heavier in paper weight, with a soft surface and a little less, rather reserved structure, for long-lasting photo and fine-art reproductions with very high quality. Made without optical brighteners and acid-free, for valuable prints with extremely high D-Max values and perfect colour space.

Museum White Smooth		270g							
White Cotton Paper									
Museum White Smooth is the slightly lighter addition to Museum Natural Smooth, also made of 100% cotton, with a soft surface and subtle paper texture. Low optical brighteners, acid-free and therefore ideal for long-lasting photo and fine-art reproductions. Ideal for black/white prints as the white tones are more natural and neutral due to the white paper. For premium prints with extremely high D-Max value on genuine cotton paper. Gloss Baryta Paper

A bright white alpha-cellulose paper with an elegant baryta gloss and a distinctive, tactile surface texture. It enables photographers to produce black-and-white images with exceptional expressiveness, deep D-max values, a fine tonal range, and impressive image sharpness. Each print unites the character of classic photography with the precision of modern digital technology.

PhotoArt White Baryta

310g

Gloss photo-art paper

A natural white classic among the traditional photo papers. With typical baryte paper gloss and discreet surface texture, without optical brightener, produced lignin and acid-free. Provides the user with age-resistant portrait prints with great colour depth, high tonal range and excellent image sharpness. Recommended especially for black/white prints with absolutely high D-max values.

Museum Natural Silk

300g

Silk-gloss photo-art paper

A genuine fine-art cotton paper combined with the typical pearl surface of a classic photo paper. This natural white paper is lignin-free, acid-free and produced without brighteners and is therefore ideal for long-lasting, archival photo and fine-art reproductions with great colour depth, high tonal range and excellent image sharpness. This FOGRA-certified paper with a pleasant feel is particularly recommended for black/white prints with an extremely high D-Max value.

textured

Museum Natural Velvet

300g

Velvety soft fine-art cotton paper

Museum Natural Velvet is ideal when a soft, clear texture is desired for a perfect overall picture. This very beautiful, natural white 100% cotton paper has a special acid-free coating, without optical brighteners, which allows premium art prints with an increased colour range and high D-Max. This subtle paper has an even clearer rag surface than Museum Natural Rag.

Museum Watercolor

310g

Natural white fine-art watercolour paper

The Museum Watercolor is a natural white, absolutely striking fine-art cotton paper with a regularly structured, classic watercolour surface. Despite its expressive structure, the paper is soft to the touch. Due to the specially matched coating without optical brightener, free of lignin and acid, long-lasting art reproductions with extremely high colour gamut and black densities can be ideally printed.
